LOCATION

The wind in your logistic sails

Versatile transport opportunities, with an eye to the future

The future of our logistics industry is multimodal. A smart mix of transport options guarantees a robust and versatile logistics chain, increasing your independence and flexibility. WDPort of Ghent offers countless opportunities in that area.

You can effortlessly combine road transport with water and railway, reaching the outskirts of the European market in no time.

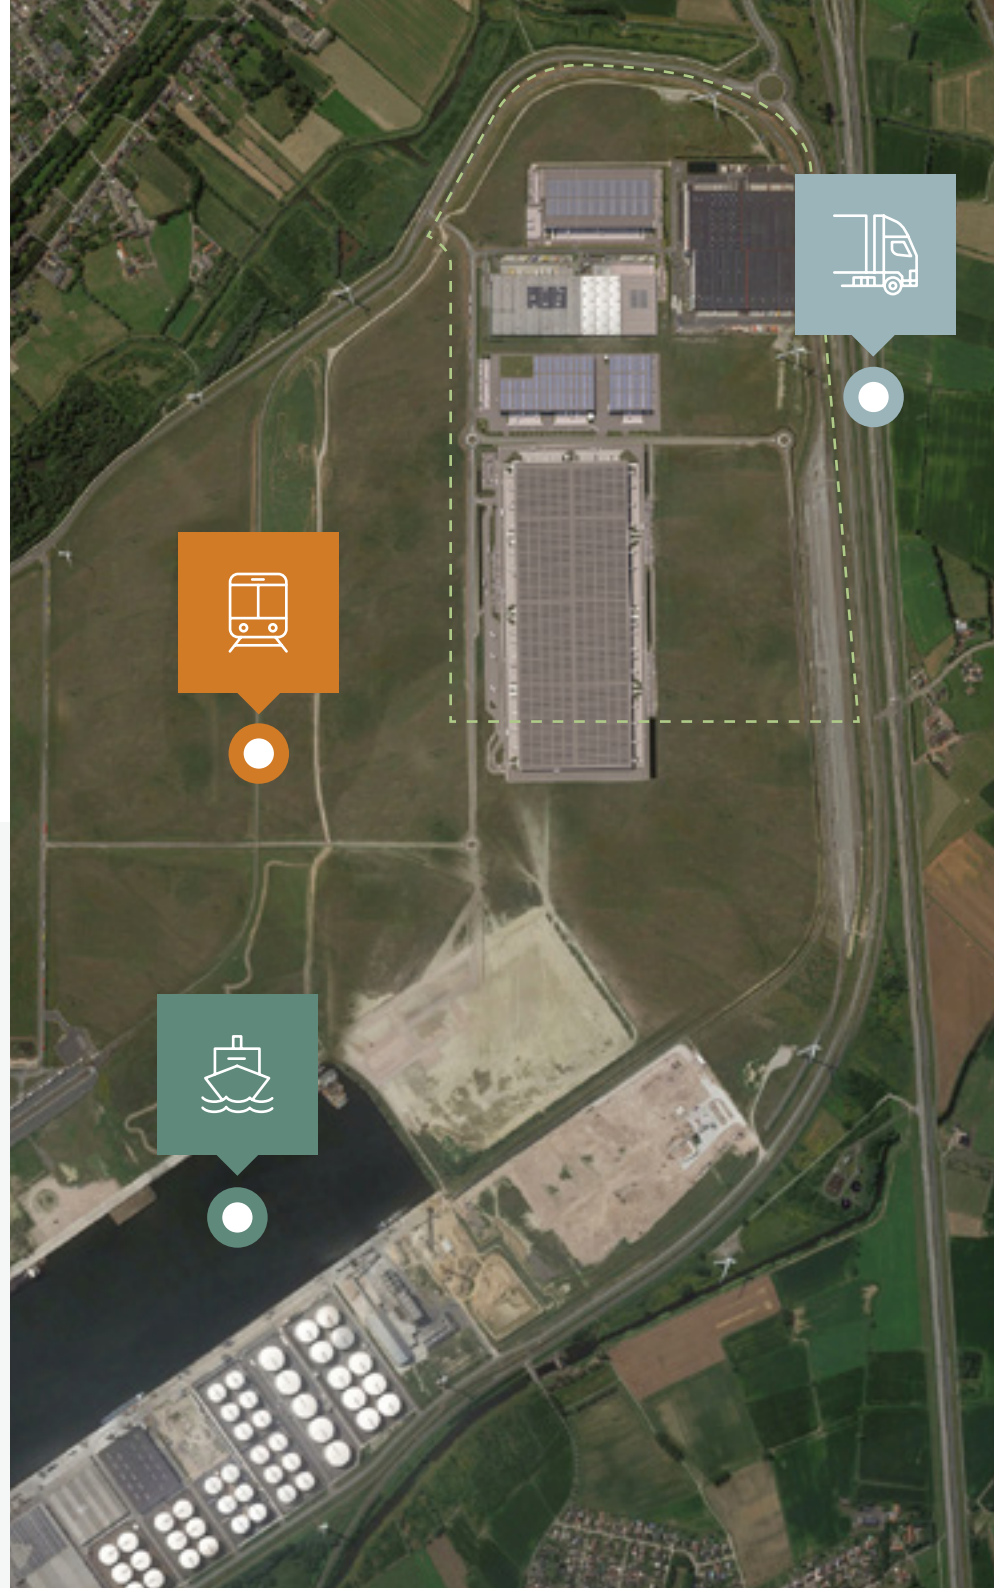

MOBILITY FACTS

WDPort of Ghent provides access to...

Waterway: gain access to North Sea Port and inland waterways

Road transport: the ringway around Ghent (R4) brings drivers directly to the E34, E17, and E40

Railway: the on-site railway connection places you on the right track to long-distant distributions.

Custom-built or a WDP standard warehouse?

Your choice, for a successful future

WDPort of Ghent is the home of opportunities for your logistics strategy – and your warehouse is built to support your operations to the full.

Choose a hypermodern, energy-efficient and sustainable distribution centre based on WDP's standardised book of requirements, or develop your customised warehouse in close collaboration with your and our architects.

Whichever direction you take, WDP delivers the high-end warehousing solution you deserve. So, choose fast: discover the two remaining lots through your WDP contact.

WAREHOUSE FACTS

WDP's standardised warehouse ensures...

- **A 360° vision to future-proof logistics:** smart mix of warehouse, offices, mezzanine, and outdoor space
- **Excellent sustainability rating:** developed according to BREEAM IN USE*** Very Good guidelines
- **Maximum comfort:** from bike sheds to EV charging docks, landscaped offices, and dressing rooms
- **Minimum environmental impact:** from LED lighting to gas-free heating and rainwater recuperation
