

WDP grows in Germany: new office and Country Manager, Christoph Telker

A key milestone in WDP's growth story: WDP will be opening a new office in Germany which will be led by Christoph Telker, who has been newly appointed Country Manager, effective 1 September. Located in Düsseldorf, the office will accommodate the local team that manages and further develops WDP's business in the German market. Christoph Telker will head this team. Before starting at WDP, Christoph Telker was Managing Director Germany at DLH Deutsche Logistik Holding.

WDP has been active in Germany for a number of years and doubled the value of its German portfolio end-2024 through a sale-and-leaseback transaction with Fiege in Zülrich. Opening an office in Düsseldorf is part of WDP's #BLEND2027 growth plan, aiming to evolve into a robust European logistics platform in the coming years of 10+ billion euros.

“

Germany is a market with huge potential for WDP. Christoph Telker brings not only experience but also a fresh perspective and a strong network in one of Europe's largest logistics real estate markets. His appointment is an important step forward for our ambition to create sustainable value in all of our core markets.

Joost Uwents – CEO WDP

Christoph brings in-depth market knowledge, a strong network and more than two decades of experience in the real estate industry with a main focus on logistics and infrastructure projects. His impressive career in Germany – including at DLH Deutsche Logistik Holding and Prologis – demonstrates his ability to bring complex projects to fruition. His expertise and strategic insight will be essential for the further development of WDP's business in Germany. Under Christoph's leadership, a local WDP team knowledgeable about the German logistics property market and its end-users will further develop the portfolio with in-house project development and acquisitions of value-added warehouses and logistics parks. This aligns with the strategy previously rolled out in the other core markets.

“

I look forward to contributing to the further expansion of WDP in Germany with a strong local team in Düsseldorf. The combination of local market knowledge and the strength of an international platform offers unique opportunities to implement sustainable logistics solutions for our clients. And strengthen WDP's role as a property partner in Germany and, thus, the entire European market.

Christoph Telker – Country Manager WDP Germany
