ABOUT THE WDP SUPPLIER CODE OF CONDUCT

As a long-term investor in logistics properties, WDP has made sustainable business a key pillar of its strategy and is aware of the important role it plays for the environment and of its social responsibility. WDP adheres to sustainable business practices with regard to all stakeholders involved in the company's activities. As one of WDP's suppliers, you have an important role to play for us to successfully achieve our expectations within the area of sustainability and contribute to a more sustainable development of society.

#TeamWDP must follow and apply the principles set out in the **#TeamWDP Code of Conduct**. WDP places the same high ethical requirements on its suppliers, subcontractors, service providers and those called upon by its partners (hereinafter the **suppliers**). This is all reflected in this **Supplier Code of Conduct**.

We expect our suppliers to respect the standards laid out in this Supplier Code of Conduct, implement them using appropriate measures and adhere to them in their business activities.

Moreover, our suppliers should take appropriate measures to ensure that the standards set out in this Supplier Code of Conduct are also met by their own supply chain.

A formal approval of the WDP Supplier Code of Conduct will be solicited each time the code of conduct is updated. We expect WDP suppliers to report to us any environmental or safety issues, and legal changes affecting their corporate statute so that appropriate Supplier Code of Conduct acceptance can be determined and applied.

WDP wants to work with suppliers through cooperation, dialogue and support to ensure continuous compliance with the WDP Supplier Code of Conduct. Therefore, WDP invests extra energy in liaising closely with the suppliers while they perform their services (whether or not on construction sites). In case of reparable non-compliance, WDP reserves the right to engage the supplier and assist in establishing an improvement action plan with clear deadlines, the fulfilment of which will help the supplier to keep the business relationship intact. Nevertheless, WDP reserves the right to review and, if deemed necessary, to terminate contracts with the supplier should a serious violation or continuous non-compliance with this Supplier Code of Conduct occur. This also applies if the supplier fails to implement mutually agreed corrective measures within a defined timeframe.

GRIEVANCE MANAGEMENT PROCEDURE

WDP points out the importance of all individuals to be able to raise issues or concerns without fear of retaliation. Have you noticed a (possible) violation of the Supplier Code of Conduct? Please let us know. We value honesty and concern. Not only will you be protecting yourself, but you will

also be putting the safety and integrity of your colleagues, your workplace, your company and all stakeholders involved first.

WDP provides a specific grievance management procedure for employees of WDP's suppliers in order to guarantee that a proper review will be conducted and actions can be taken without any concern about reprisals against the reporting person, always guaranteeing the necessary discretion and confidentiality.
